

Globex Toys — Financial Snapshot FY2025

Prepared from published figures · as of 1 October 2026 · for internal use

MANAGEMENT COMMENTARY

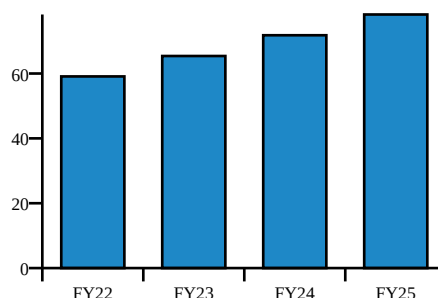

FY2025 was another strong year for Globex Toys, with total revenue up 8.9% year-on-year. Growth was broad-based across all three product lines, though momentum varied significantly between them. International markets, and Canada in particular, continued to gain share of total revenue. The Board approved a new capacity investment for the Outdoor Play Equipment line in Q2 FY2025; a final decision on financing structure and timing is pending management sign-off.
